Nutrisol 13.40.13 15.30.15+2 MgO

Formulas with high content of phosphorus indicated as a starter solution to promote root development and recovery after transplanting.

This product is recommended on crops that need phosphorus in particular and in the phases prior to flowering or seed production.

Nutrisol contains balanced amounts of chelate micro-

nutrients in such quantities as to supply at every application the correct technical nutrition in order to avoid dangerous deficiencies.

Nutrisol are highly soluble formulas and are totally sodium, chloride and carbonates free in order to avoid any phytotoxicity on the crops.
